## EKREM ELBASAN

I have worked on various projects as a back-end web developer, mainly focusing on web development, REST APIs, and working with different databases and frameworks. I'm comfortable using Java, the Spring framework, and SQL.

### EMPLOYMENT

---

|                                     |                                      |                                |
|-------------------------------------|--------------------------------------|--------------------------------|
| <b>Full Stack Developer, Intern</b> | <b>Onbiron Bilişim Teknolojileri</b> | <b>July 2024 – August 2024</b> |
